How you
can help

Who we are

The VinaCapital Foundation (VCF) is a USA registered 501-c3 public charitable organization, licensed as an international non-governmental organization in Vietnam. Founded in 2006, VCF's mission is to create healthcare and education solutions that transform the lives of underserved and marginalized children and women in Vietnam. The work of VCF touches the lives of millions of Vietnamese in 63 provinces. **Our focus area:**

GRASSROOTS MEDICAL PROGRAMS

Provide medical assistance to underserved children and adults. Through financial and psychosocial support, our programs reach each individual at the "person to person" level.

HEARTBEAT VIETNAM

Funds heart surgeries for poor children.

RURAL OUTREACH CLINICS

Provides free medical examinations in rural Vietnam.

CARE TO RISE

Takes care of and supports disadvantaged children and orphans affected by the Covid-19 pandemic.

GRASSROOTS ASSISTANCE

Assists children with retinopathy, hearing impairment, cancer, and other health complications.

HEALTHCARE CAPACITY BUILDING PROGRAMS

Enhance the healthcare system throughout Vietnam by organizing training, donating critical equipment and water filtration systems, and assisting the country in time of emergency.

SURVIVE TO THRIVE

Provides emergency training and equipment for emergency and neonatal care in rural hospitals.

CLEAN WATER

Installs filtration systems to provide potable water for underserved communities.

NATIONAL EMERGENCIES

Organizes and implements disaster and pandemic relief.

EDUCATION PROGRAMS

Pave the way into a better future through education. Our programs transform ethnic minority female students into agents of change in their communities.

BRIGHTER PATH SCHOLARSHIP

Awards scholarships, provides mentoring, and organizes annual empowerment meetings.

BRIGHTER PATH GIRLS' CLUBS

Organizes after-school club activities to provide knowledge and soft skills training in legal rights, sexual and reproductive health, financial literacy and leadership.

CEO's letter

Dearest Friends,

It is my honor to present the VinaCapital Foundation's (VCF) Annual Report for 2023 to those of you who have supported VCF's work and as well as to those who have an interest in learning more about us. It was another banner year with many challenges and opportunities. The talented VCF staff, with help from a wide array of stakeholders, worked hard to meet the challenges. Every category of our multi-sectoral work increased in numbers, improved in quality or both.

When I see the enormous impact of our work, I am reminded of Don Lam and Robin King Austin's vision, VCF's founders. It was their vision 18 years ago to plant the seeds of transformational programs focused on children.

The experts tell us that to reduce generational poverty in a developing country, women must be empowered, and that can only occur when mothers have healthy children. VCF's effective work today is the reality of that original vision. As you look over the enclosed accomplishments that Don and Robin set in motion, it is important to note that VinaCapital Group, of which VCF's Board Chair Don Lam is CEO, funds all VCF's administrative costs. This support enables VCF to allocate all other donations to the programs donors choose. VCF is audited by Grant Thornton and undergoes an international audit annually.

VinaCapital Foundation's programs have developed into key ingredients of national government priorities, forging strong relationships and respect with organizations such as the Central Youth Union, the Ministry of Foreign Affairs, the Ministry of Education and Training, the Ministry of Labor, Invalids and Social Affairs and the Ministry of Health. Late in 2023, the new VCF National Cancer Program for Children began the preparation stage for rollout in 2024. The cancer focus is one good example of a countrywide VCF and Ministry of Health joint effort. The Brighter Path Girl's Clubs is also a national collaboration with the highest levels of government support.

Rad Kivette
CEO, The VinaCapital Foundation

CEO's letter

Since 2006, VCF and Heartbeat Vietnam worked tirelessly to provide over 10,000 surgeries for children, with 977 operations contributing to that milestone in 2023 alone. Also in 2023, over 73,000 more rural children were screened for congenital heart defects via

80 outreach clinics; billions of Vietnamese Dong have been invested in medical training and equipment provided to the most underserved rural areas; the further expansion of our ethnic minority girls' education and empowerment program gained enormous momentum; life-changing clean water solutions were implemented; and significant progress was made with the health and education of our 2,354 Covid orphans. VCF impacted the lives of hundreds of thousands of Vietnamese citizens in 2023.

VCF's fundraising follows our good work and exceeded both the 2023 budget as well as the previous year's 2022 income. The seasoned back office and middle office teams excelled throughout the year in keeping overhead expenses in line with income. The Marketing and Communications team stepped up many times with creative solutions for the successful public presentation of our work while continuing to promote the existing program portfolio of outstanding results. Both Human Resources and Finance teams provided solid support to our program team.

VCF's program focus harmonizes with the United Nations Sustainable Development Goals in a number of sectors. VCF's sustainable work has been recognized by government leaders and other third-party evaluators at national and international levels as some of the most relevant, efficient, and effective in Vietnam. Our solutions are evidence-based and data-driven. But we must never forget that every data point represents a beneficiary who suffers, a mother who is heartbroken, and a family who lives in poverty. As you will realize from your journey through this 2023 Annual Report, every beneficiary has a life-changing story to share because of your support for VinaCapital Foundation and our determination to never fail you, our Board, the government of Vietnam, or the beneficiaries in our passion to improve this wonderful country, Vietnam.

Please examine our 2023 Annual Report and enjoy the outstanding results of your support as a donor. If you are interested in investing our life-changing work and you are evaluating us, let me know of any questions. We have so much more to share with you!

Thank you!

VCF also organizes many other activities every month with many partners, to celebrate special occasions for children, or distribute gifts and timely support to disadvantaged children and families in need.

GRASSROOTS MEDICAL PROGRAMS

HIGHLIGHTED STORY

Luck smiled upon Dinh Dat, a 15-year-old young boy with congenital heart defect from Dak Lak province, when he was discovered by VinaCapital Foundation (VCF) through a free heart examination for disadvantaged children at the Central Highlands Regional General Hospital. With timely support from VCF's Heartbeat Vietnam program, Dinh Dat underwent a life-saving surgery to heal his heart, as well as to receive a very special gift to help him pursue his dreams.

Meeting Dinh Dat and his mother after the successful surgery, he always wore a smile on his face despite still being in pain from the surgery. Talking with Dinh Dat, we were surprised to learn that he had an interest in information technology ever since he was young and dreamed of pursuing IT to support his mother and family. Despite only being in the 10th grade, he showed determination to learn more about programming by borrowing his cousin's laptop.

Impressed by his enthusiasm and eagerness to learn, VCF arranged another meeting with Dinh Dat to present him with a new laptop to transform his dreams into reality. This eager young man finally got his first laptop when visiting VCF's office on the occasion of his health checkup visit to Ho Chi Minh city this past August. Receiving the long-awaited gift, Dinh Dat couldn't contain his excitement as he eagerly unboxed the gift. VCF also presented Dinh Dat with various books on necessary life skills and IT, supporting his desire for knowledge and expanding his horizons. Overwhelmed by the care shown by the VCF staff towards Dinh Dat, his mother couldn't help but shed tears of gratitude. We all cried together.

Founded in 2006, Heartbeat Vietnam funds life-saving heart operations for financially disadvantaged children with congenital heart defects (CHD) in Vietnam. The program also provides the cost of pre-treatment and post-operative care for the heart children, including nutrition support, travel fees, health check-ups as well as scholarships so they can remain in school.

Through sharing Dinh Dat's story, we hope to ignite a spark of hope in children with experiences like Dinh Dat. The support provided by VCF extends beyond free congenital heart defect surgeries. Our ultimate goal is to improve the lives of disadvantaged children and women across Vietnam through healthcare and education solutions. We need a lot of help from the community to support and bring hope to support these disadvantaged children and create hope that these young dreams will come true.

SURVIVE TO THRIVE

The Consulate General of the Federal Republic of Germany Ho Chi Minh City and VCF enhance the quality of maternal and neonatal care in Quang Ngai province

Since 2022, The Consulate General of the Federal Republic of Germany Ho Chi Minh City has sponsored the implementation of two Survive to Thrive projects in Son Tay and Tra Bong districts, Quang Ngai Province.

The contributions enabled the Survive to Thrive program to deliver 445 medical pieces of equipment for 68 hospitals in 13 provinces and cities, saving the lives of over 42,000 newborns and supporting tens of thousands of mothers nationwide.

HEALTHCARE CAPACITY BUILDING PROGRAMS

HIGHLIGHTED STORY

A Muoi is a H'Mong baby, born prematurely at the Medical Center of Sin Ho District on October 2023. After receiving dedicated care, he was sent home. However, just a few days later, A Muoi and his parents had to travel more than 45 km back to the Medical Center because the baby caught severe pneumonia causing respiratory failure.

Once again, A Muoi was rushed to the emergency room and promptly received treatment to alleviate his breathing difficulties. He was provided with breathing support using a continuous positive pressure machine (CPAP) donated by the VinaCapital Foundation's Survive to Thrive program and sponsors, along with other essential medical interventions. After six days of treatment, he regained his health and was reunited with his loving family.

Without the necessary equipment at the medical center, A Muoi's life would have been in even greater jeopardy. A lengthy transfer to an upper-level provincial hospital over 230 km away could have had disastrous consequences. Additionally, as H'mong parents from a rural area, his family encountered significant language barriers when communicating with the medical staff in the provincial hospital.

Saving little lives like A Muoi has been the focus of the Survive to Thrive program. By enhancing neonatal healthcare capacity in rural medical centers and hospitals, we aim to provide the best start in life for every child born.

Survive to Thrive provides pediatric emergency training and fully stocked emergency crash carts for pediatric resuscitation and cardiotherapy for emergency departments, as well as neonatal intensive care unit (NICU) equipment and training for hospitals to reduce infant mortality and build capacity for better neonatal care in regional medical centers and rural hospitals throughout Vietnam.

The program's main components are: Certifying doctors and nurses in Advanced Pediatric Life Support (APLS) nationwide; Donating pediatric crash carts, tools and neonatal care equipment to hospitals; Training doctors and nurses on crash cart and neonatal equipment usage; Maintaining and repairing the donated equipment at hospitals while tracking impact results.

A MUOI: SUCCESS STORY OF A PREMATURE INFANT IN THE MOUNTAIN OF LAI CHAU PROVINCE

HIGHLIGHTED ACTIVITIES

BRIGHTER PATH SCHOLARSHIPS

The Brighter Path program organized the national Annual Empowerment Meeting for ethnic minority female students in Hanoi. This is an annual event for the scholarship students of the Brighter Path program, which supports disadvantaged ethnic minority girls who excel academically. The program provides full scholarship support for 7 years (3 years of high school and 4 years of university) ensuring opportunities for the girls to continue their studies and pursue their dreams.

[Read more](#)

BRIGHTER PATH GIRLS' CLUBS

The members of the Brighter Path Girls' Club showcased their talents and creativity through the "From Knowledge to Action" competition. With the participation of six Brighter Path Girls' Clubs in eight Thai Nguyen province, the competition brought a meaningful playground, providing opportunities for ethnic minority female students to exchange and learn while conveying positive and impactful messages through the competition's content.

EDUCATION PROGRAMS

HIGHLIGHTED STORY

Tiem, a 23-year-old female student from the Tay ethnic minority, has fulfilled her long-held dream of attending the prestigious Academy of Finance in Hanoi. This invaluable support of from VinaCapital Foundation's (VCF) Brighter Path Scholarship fund along with a lot of hard work made Tiem's dream come true.

Born in a humble village nestled in the border region of Cao Bang province, Tiem and her younger brother grew up in the faithful embrace of their mother after their father passed away when Tiem was only 2 years old. Their livelihood relied on a small plot of land, leading to times of scarcity. Tiem understood their family struggles and began assisting her mother with household chores at a young age. She was determined to change their fortunes through education. Despite having to overcome rugged roads every day to reach school, the young student never lost her spirit. There were times when Tiem considered sacrificing her university dreams to support her mother and ensure her brother's education due to their extremely difficult circumstances. Joy overflowed for Tiem and her family when she was chosen as one of the 50 outstanding ethnic minority female students to receive the Brighter Path Scholarship sponsored by VCF.

The Brighter Path Scholarship assured this talented student the opportunity to complete both high school and university education. In 2020, Tiem excelled in the entrance exam for the Academy of Finance, her dream school. With a GPA over 3.2, she maintains an impressive academic record and actively participates in scientific research, earning scholarships along the way. Tiem constantly challenges herself and emerged as the first-place winner in the English Festival 2023 competition organized by the Faculty Union of Foreign Languages. In addition to her academic pursuits, she holds roles as Deputy Secretary of the Youth Union and is actively involved in various university activities, including assisting new students and volunteering for charitable programs.

"Since receiving the scholarship, my mother has faced less hardship as she no longer has to struggle to earn money for my tuition fees. From a shy girl, I have transformed into a dynamic, energetic, and confident student. I never dreamt of setting foot in big cities, but thanks to the Brighter Path Scholarship, I have visited Hanoi, Da Nang, and I am sure there will be many more new experiences that I will gain in the future."

Brighter Path empowers the brightest disadvantaged rural ethnic minority girls in Vietnam through formal and informal education and training.

NONG THI TIEM: THE JOURNEY TO SHINE FOR A TAY ETHNIC MINORITY FEMALE STUDENT

After completing her studies, Tiem has a strong desire to return to Cao Bang and share the knowledge she has gained with the young children in her hometown, inspiring them to have more education that will transform their lives.

HIGHLIGHTED EVENTS

On June 1, 2023, after 17 years, The VinaCapital Foundation (VCF)'s flagship program Heartbeat Vietnam proudly reached a remarkable milestone – saving the lives of 10,000 disadvantaged children with congenital heart defects. Heartbeat Vietnam ensures that all children will grow up healthy, fulfill their dreams and transform their families' futures.

Heartbeat Vietnam's 10,000th child is Van Vinh, a 13-year-old boy from Ba Na ethnic group in Binh Dinh province. Neither Vinh nor his parents knew he was growing up with an atrial septal defect affecting his heart. Studying in a boarding school, he walked for 2 hours to class from home every 2 week, until his heart defect became more painful and dangerous.

Vinh's parents are manual workers and his mother struggles with health problems making it even more difficult to afford healthcare for their children. After Heartbeat Vietnam supported him to receive the life-saving surgery, Vinh now can live a healthy life and hopes to fulfil his dream to be a singer one day.

After reaching the milestone of 10,000 children saved, Heartbeat Vietnam is committed to continue our journey to find and save more heart children so that all children can grow up healthy and fulfill their potential to contribute to the development of Vietnam.

HEARTBEAT VIETNAM:

SAVED 10,000
DISADVANTAGED
CHILDREN
WITH CHDS

HIGHLIGHTED EVENTS

The new semester at Mu Sang Boarding Elementary School in Phong Tho District, Lai Chau Province, began with excitement as the VinaCapital Foundation (VCF) and Miss Universe Vietnam 2017 H'Hen Nie, handed over a new water well and pumping system. This initiative addressed the school's long-standing water scarcity, created a healthier environment, and enhanced educational outcomes.

Nestled in the border mountainous district in the north of Lai Chau province, the area is home to a population that is 96% ethnic minorities. Due to natural conditions, access to clean water is a luxury for the people here, including more than 500 boarding students and teachers at Mu Sang Boarding Elementary School. With no water source at the school, they had to rely on rainwater collected in unsanitary tanks or hike over 1.5 km uphill to fetch water from the nearest stream.

Drilled 100 meters deep into the ground, the water well solved this problem. The school community, once reliant on unsanitary water sources, now enjoys the benefits of a clean and reliable supply. This life-changing project is a testament to the impact of the Clean Water program.

CLEAN WATER:

PROVIDING CLEAN WATER FOR ETHNIC MINORITY CHILDREN IN LAI CHAU PROVINCE

HIGHLIGHTED EVENTS

In the vibrant atmosphere of the Mid-Autumn Festival, the Ho Chi Minh City Youth Union and Binh Tan District Youth Union collaborated with VCF's Care to Rise program and Vietnam Children's Fund Social Enterprise to organize the Mid-Autumn Festival celebration for over 500 disadvantaged children affected by COVID-19 from Binh Tan District, Nha Be District, Binh Chanh District, District 6, and District 8.

These children come from families facing hardships, including the children of workers, many of whom have tragically lost their loved ones due to the pandemic.

HOW YOU CAN HELP

Every donation, whether big or small, is incredibly vital and meaningful in supporting VCF's life-saving journey. Your generous contributions assist VinaCapital Foundation in healing little hearts, improving access to quality healthcare, educating those who need it most, and providing clean water to underprivileged communities. Together, we reduce poverty, transform lives and create better futures for Vietnamese children and their mothers..

MAKE A DONATION

Make a contribution to support our mission and programs

[Learn more](#)

CREATE CAMPAIGNS

Create your own fundraising campaign to gather support from your community

[Learn more](#)

PARTICIPATE IN CSR

Engage in corporate social responsibility (CSR) activities with your organization

[Learn more](#)
